## LBJ'S "Great Society" Misunderstood; Socialist Program To Take Over U.S.A.

STATE OF THE UNION  
By Senator Strom Thurmond

At the beginning of the new year, it is well to take stock of the state of our national affairs as we begin preparing for the future. On the international scene, the United States is starting from a low point on the totem pole.

In Vietnam, we are engaged in an undeclared shooting war with communism. American casualties are mounting rapidly. We are losing that war, and despite official assurances, it is no secret in Washington that the U. S., instead of trying to save Southeast Asia, is looking for a way to pull out and save face.

In Europe, the collective defense arrangements of NATO have fallen into a shambles. Mutual confidence has disappeared and has been replaced with mutual distrust.

In Africa, chaos reigns. Our policy of supporting "independence now" for peoples who have no preparation for self-government is bearing dangerous fruit. The rebels in the Congo are being agitated and supported not only by the Soviets and Red Chinese, but also by Nasser's Egypt and Ben Bella's Algeria—both recipients of large scale U. S. foreign aid.

In Latin America, communist subversion, terror, and influence continue to expand from Cuba, where communism is now an entrenched bastion. Panama still seethes with the potential for more riots and disorders against the U. S. Our plan to get around the crisis over the Panama Canal by building a new canal would be feasible only if we used nuclear devices for building it—something that is blocked by the test ban treaty.

Red China has acquired a nuclear capability and is more belligerent than ever. Russian words are milder during this period of power-consolidation by the new Soviet leaders. However, their actions indicate that our policy of accommodation has not caused the intended mellowing. The Soviets are supporting the Congo rebels, and have threatened to intervene if we strike back at the aggression in Southeast Asia from North Vietnam and Red China.

In the United Nations, after strong words by the U. S., we have just backed down from a showdown with the Soviets over refusal to show their U. N. assessments, which the Charter provides shall result in loss of voting rights in the General Assembly. Since the U. N. has fallen under the control of "neutralist" nations of Asia and Africa, it is fast becoming a part of the international problem, rather than a part of the solution.

As the last year ended, there was a substantial increase in anti-U.S. activities around the world.

Our international monetary position has reached a new record. In the last decade, our short-term liabilities to foreigners, which are callable in gold, increased from \$13.6 billion to \$25.9 billion. In the same period,

Lyndon B. Johnson

Q: Do you think that Lyndon Johnson has taken on any of the coloration of his predecessor in his thinking?

A: No, I think Johnson has worked out the Presidency in his own terms and hasn't tried to emulate Kennedy. If there's any emu-

our gold stocks diminished from \$21.8 billion to \$15.6 billion. Meanwhile, our balance of payments deficit continues at the rate of about \$3 billion per year.

Turning to the domestic scene, our fiscal course continues down the primrose path. The formal debt of the national government has reached \$313 billion. The informal debt, including future liabilities, has reached \$1 1/4 trillion. Last year's deficit was a resounding \$8.3 billion, and prospects look no better this year.

Our political and social structures have undergone further radical changes. The Supreme Court, through the reapportionment cases, has taken from the people the right and power to determine the structure of their State governments. Prayers and Bible reading in public schools are now prohibited. And, recently, the Court held that a company could not make a decision to sub-contract for an item it previously produced unless the company could obtain agreement to do so from its labor union.

Crime rates, particularly crimes of violence and crimes against property, continue to surge. The threat of violence and disorder hangs ominously over numerous communities.

Corruption and misfeasance in high places draws little public protest, even when exposed in all its ugliness.

This, then, is the state of the Union, the "high plateau" from which we are to enter the "Great Society."

"You say I am not a liberal. Let me tell you I am more liberal than Eleanor Roosevelt and I will prove it to you. Franklin D. Roosevelt was my hero—he gave me my start."

lation, it would be more of Franklin D. Roosevelt.

### "Great Society" Ruined Britain

Fifty years ago (1914) there was a 370 page book published with the title of "The Great Society." Its author was a Professor Graham Wallas of the London School of Economics and a founding member of the Fabian Society. Wallas' book was one of the Fabians' major blueprints for their Socialist remaking (wrecking) of Great Britain.

Speaking at the University of Michigan on May 22, 1964, President Lyndon B. Johnson said:

"In your time we have the opportunity to move not only towards the rich society and the powerful society, but upward to the Great Society."

The main blueprints for LBJ's Great Society may be found in the 1964 program of the Americans for Democratic Action (ADA) where "each individual enjoys the highest degree of liberty, opportunity, and security compatible with the liberty, opportunity, and security of his fellows," or as Karl Marx put it: "the free development of each is the condition for the free development of all."

On September 26, 1961 at 12:45 P. M., The U. S. Arms Control and Disarmament Agency Act was approved by both houses of Congress, thereby giving Congressional sanction to what has become the ADA's "first priority" in the field of U. S. foreign policy—"the negotiations of agreements on arms control and ultimate disarmament."

September 1961 also produced the State Dept. publication 7277, "Freedom From War—The United States Program for General and Complete Disarmament in a Peaceful World."

Excerpts:

"The over-all goal of the United States is a free, secure, and peaceful world of inde-

Continued from page 1

pendent states adhering to common standards of justice and international conduct and subjecting the use of force to the rule of law; a world which has achieved general and complete disarmament under effective international control; and a world in which adjustment to change takes place in accordance with the principles of the United Nations."

The ADA puts it this way:

"Our ultimate goal is the creation of a world community under law . . . and the rule of law should be support of the U. N."

Vice-President-elect Hubert Humphrey was the author of the U. S. Arms Control and Disarmament Agency Act. Former Senator Humphrey, a former ADA National Chairman, was also Senate floor manager of the 1964 Civil Rights Bill and on Dec. 12 was put in charge of the "war on poverty" by LBJ. Poverty in America and the "vigorous enforcement" of the 1964 Civil Rights Act are two of the ADA's primary concerns in regard to U.S.A. domestic policy.

Leon Keyserling, an ADA Vice Chairman, and Chairman of the Council of Economic Advisors in the Truman Administration, has just released a 150 page report entitled "Progress or Poverty," which calls for a \$156 billion federal spending budget by 1975. This report was issued by the leftist Conference on Economic Progress, whose national committee includes (in addition to ADAer Leon Keyserling) George Meany, AFL-CIO President; former Judge Thurman Arnold; Auto Workers President Walter Reuther; and James G. Patton, National Farmers Union President. Reuther & Patton are also ADA Vice Chairmen.

James G. Patton is also listed on the board of directors of a secret political organization virtually unknown to the general public—The Council For A Livable World.

The Council For A Livable World very possibly operated in your state, attempting to select your U. S. Senators and Representatives last fall. The Council has money counted in the millions of dollars. It has demonstrated in the past it is willing to spend as much as is needed to elect the kind of Senators and Representatives it describes as "thoughtful" men. By "thoughtful" the Council For A Livable World means men who agree with its position and will work to achieve its aims.

What are these goals? Briefly, they include unilateral disarmament, stripping the United States of its muscle, turning this country into a fourth-rate power at the mercy of the international wolfpack (money-changers).

### GREAT SOCIETY—DISARMED U. S.

To achieve its goal—a totally defenseless United States—the Council has adopted the troika approach: (a) Infiltration of the Arms Control & Disarmament Agency; (b) Extragovernmental conference with the Red scientists; (c) Buying U. S. Elections.

Membership of the Council (founded in June 1962 by the late Leo Szilard) is largely from academic circles. The U. S. Arms Control & Disarmament Agency has sponsored many research projects and Council members have contributed heavily to these (at taxpayers' expense!). A few examples:

ACDA/IR-8, "Political Control of an International Police Force," by Hans Morgenthau (ADA National Board member), and adviser to Council For A Livable World under contract to the Institute For Defense Analysis. ACDA/WEG-9, "Factors on Arms Inspection and Reassurance," by Bernard Feld, president of Council For A Livable World.

Council founder Szilard had teamed up with Bertrand Russell (England) and Cyrus Eaton (USA) to form the "Pugwash" conference, where American scientists exchange ideas with their Iron Curtain colleagues. The Senate Internal Security Subcommittee in a staff report during the 1st Session, 87th Congress, stated:

Paul Samuelson, Jew economist heading task force for permanent prosperity in LBJ's Great Society; advocates yearly unbalanced budgets and world money.

"In most of the contacts that have thus far taken place, the free world scientists, although they have sometimes argued strongly, have not been able to compete with their communist counterparts. The extensive use which the communist propaganda apparatus has made of the Pugwash conferences is proof enough of this . . ."

Evidence has also been uncovered that the Council For A Livable World has been attempting to swing primary as well as general elections. A Harrison, Pa. news dispatch detailed contributions received by Genevieve Blatt, a 1964 Democratic contender for the Senatorial nomination. In her filed statement with the Secretary of State (Pa.) Miss Blatt listed a \$1,000 contribution to her campaign by the Council For A Livable World. When the Council filed its lobbying expense statement with the Secretary of the Pennsylvania Senate for the 2nd quarter of 1964 an interesting "lobbying" expense item appeared: "Genevieve Blatt, Philadelphia, \$1,000." After a closely contested primary battle, Miss Blatt was finally declared the winner. The Council's contribution was the second biggest to Miss Blatt's primary campaign fund.

### ENTER DAVE DUBINSKY??

When President Johnson was in New York City for the last rites of the late Herbert Hoover (Oct. 1964), an anonymous labor leader visited him at the Waldorf Astoria and predicted a 2,000,000 plurality on Nov. 4. (The margin was 2,400,000). The same labor leader told Bobby Kennedy that he would be elected Senator of New York State by over 600,000 votes. (He was!) Mr. Anonymous also predicted a Hubert Humphrey-Bobby Kennedy national ticket in '68!

At about 10:00 P. M. on the evening of Monday, Dec. 7, 1964, an animated conversation took place outside the State Dining Room of the White House. History had brought together two former school teachers

and an ex-garment cutter who conducted his first strike against his own father's bakery at age 15. President Lyndon Johnson, Socialist Prime Minister Harold Wilson of England, and International Ladies Garment Workers President David Dubinsky. LBJ had been kidding Dubinsky, who is an ADA National Board member, about not getting out more votes in N. Y. (Johnson won in N. Y. by the largest plurality in history). Dubinsky replied: "The trouble with you, sir, is that you wanted to win by acclamation."

Senator Strom Thurmond (S. C.) has correctly appraised the so-called "Great Society," personified by the Democratic Party, as having "forsaken the people . . . repudiated constitutional government, and is now leading this country down the road towards a socialistic dictatorship . . ."

Perhaps the Humphrey-Dubinsky-Schlesinger - Keyserling - Schary - Reuther ADA "democratic" planners should recall the words of President Lincoln:

"We have been the recipients of the choicest bounties of heaven, we have been preserved these many years in peace and prosperity, we have grown in numbers, wealth and power as no other nation has ever grown.

"But we have forgotten God. We have forgotten the gracious hand which preserved us in peace and multiplied and enriched and strengthened us; and we have vainly imagined, in the deceitfulness of our hearts, that all these things were produced by some superior wisdom and virtue of our own.

"Intoxicated with unbroken success, we have become too self-sufficient to feel the necessity of redeeming and preserving grace, too proud to pray to the God that made us."

## LBJ'S Message to the People

By Congressman James B. Utt

President Johnson made his State of the Union Address on the evening of the opening of Congress. It was made at 9:00 P.M., Eastern Standard Time, in order to blanket the Nation during prime TV time on all networks. In no sense was it a State of the Union Message, but rather a glossary of promises for the future. It was one of the best "snow jobs" ever given. There were more "goodies" offered the public than you will find in the Sears Roebuck Catalog, including the harness section, and Norman Thomas, head of the Socialist Party of America, could not have conceived of a more enchanting Utopia.

The facts, however, do not square with the words in the message. The President credited the last four years with having produced everything that America has today. He showed an abysmal ignorance regarding the International Communist Conspiracy. He invited co-existence with the good communists, while attacking the bad communists of Red China. Let there be no mistake, there is no such thing as good communists and their conspiracy is to destroy the free world, whatever is left of it, and the United States is the prime target.

He said that the communist world was falling apart, and that no "NEW NATION" within the last four years had become communist. What a classic in semantics and dialectic materialism! It revolves around the word "NEW," because there are nations that have become communist in the last four years, but they don't happen to be "NEW NATIONS." Indonesia has become communist, but Indonesia is not a "NEW NATION." Uganda has become communist, but it is not a "NEW NATION." Laos has become communist, but it is not a "NEW NATION," and there are others.

The President said that he had resolved our differences with our neighbors in the Western Hemisphere. Nothing could be further from the truth. We still have vital differences with Castro's Cuba, with Panama and other Western Hemisphere Nations that have not been resolved. He praised the Alliance For Progress, which is probably the

greatest colossal flop of the decade. The President said that our price stability is unequalled in the world. The cost of living in America has risen more than \$20 billion in the last three years, and the forecast is for an increase of another \$10 billion during this calendar year. He took credit for saving \$3 1/2 billion in waste since he became President. That means that either President Kennedy was the greatest waster of all time, or that his figures are a figment of his own imagination. We are facing a \$6 billion deficit by June 30th of this year, and an additional \$10 billion deficit by June 30, 1966. He is promising a budget of about \$100 billion, but, if he implements the programs promised in the message, that deficit will soar from \$10 billion to \$20 billion.

The "Great Society," is the most revolutionary program ever submitted. It would create a complete welfare state which can only be maintained by brute force. It also means the extension of absolute domination and control over the states and every political subdivision, as well as every individual in the Nation.

### SMILE WHEN YOU PAY THOSE TAXES TO BUILD LBJ'S GREAT SOCIETY

"The power to tax is the power to destroy." —Chief Justice John Marshall (1819)

"Without the income tax, Socialism is impossible. With the income tax, Socialism is inevitable." —Chodorov

"The graduated income tax is, and always has been, at the very core of Marxian strategy to convert the whole world by patient gradualism into a Communist ruled empire of slaves." —Robert Welch

"The personal income tax, which was devised by Karl Marx and was prescribed by him in the Communist manifesto for the self destruction of America, is the source of all evil. It can, and must be repealed if America is to remain a nation of free people." —Author Unknown

"The graduated income tax is part of the United Nations' blue print for subversion of the Constitution. It is the adoption of the major objective of the Communists, for it improperly gives the federal government the unlimited power to confiscate income and later authorize it to be squandered on national and international boondoggling projects." —Warren Jefferson Davis

"... the income tax law is so complex that neither the tax payer, his counsel, the officials of the Bureau of Internal Revenue, nor the Judges of the nation's courts understand it..." —Bernard N. Ward, CPA

"The fundamental and ultimate issue at stake... is not merely our money—it is liberty itself, the excessive taxation of an overgrown government versus personal freedom. Our swollen budgets constantly have been misrepresented to the public. Our government has kept us in a perpetual state of fear... with the cry of grave national emergency.

The Administration must cut spending, not only to reduce the burden of the people, but to eliminate "Arming the magistrate" with a patronage of money which might be used to corrupt the principle of government.

The greatest danger to a high level of employment is not automation, but heavy taxation, which removes from industry the funds with which to expand and create new jobs for the increasing population. Excessive taxation produces results somewhat resembling the evils of slavery." —Gen. Douglas MacArthur

In a talk before the National Association of Real Estate Board Convention in 1961, Eddie Rickenbacker attacked the income tax as "federal confiscation" and predicted the tax will go because everybody hates it. "Nobody can understand it. It cannot be enforced. Only the communists want it." Rickenbacker added "Billions are now used to finance 700 large government-owned

corporations and 19,000 businesses, and each competes with every known phase of American enterprise."

A tax expert, Dr. Harly L. Lutz, Princeton University professor emeritus of public finance, described the Federal Income Tax as a "method of national suicide."

"U. S. is in death grip of taxation. Income Tax is shameful, discriminatory and serious threat to middle income group."

—T. Coleman Andrews, Former I.R.S. Commissioner.

Mr. William Gladstone, England's famous Prime Minister: "I believe an income tax does more than any other tax to demoralize and corrupt the people."

### GREAT SOCIETY "MEGALOPOLIS"

The above map of a planned integrated community between Washington and Baltimore, to be known as the city of Columbia (pop. 110,000), represents very clearly what Karl Marx referred to when he called for "gradual abolition of the distinction between town and country..." The fusing-together of metropolitan areas into one endless "Megalopolis" is taking place in 74 other areas of the U. S., all in various stages of development.

### GREAT SOCIETY-MARXISM-SOCIALISM

Do you realize the significance of the "Great Society" and its program for National Marxian Socialism?

Here are the words of George Bernard Shaw, one of its organizers and founders:

"I also made it clear that Socialism means equality of income or nothing, and that under Socialism you would not be allowed to be poor. You would be forcibly fed, clothed, lodged, taught and employed whether you liked it or not. If it were discovered that you had not the character and industry to be worth all this trouble, YOU MIGHT POSSIBLY BE EXECUTED IN A KINDLY MANNER: but whilst you were permitted to live you would have to live well."

### LBJ Pays Off

In Chicago, at the Socialist Party's national convention, Norman Thomas, one time president of the Socialist Party, had this to say:

"We all have reason to be grateful to him (Lyndon Johnson) in the way he is handling civil rights and poverty. I ought to rejoice, and I do. I rub my eyes in amazement and surprise. His war on poverty is a Socialistic approach."

"Gentlemen may cry, Peace, Peace—but there is no peace. The war is actually begun!... Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty or give me death!"

—Patrick Henry

## DISARMAMENT

CALLING ALL PATRIOTS! Alert No. 17  
By P. A. Del Valle, President  
Defenders of the American Constitution, Inc.

**FACTS.** The following is the record of the destruction of our military potential, present and future:

1. Dismantling of Jupiter missile bases in Turkey, Italy and England.
  2. Closing down of bomber bases in England, Spain, Morocco, Libya and Guam.
  3. Reduction of our production of nuclear materials for military purposes by 50% (orders of President Kennedy, February, 1961, and by President Johnson, January and April, 1964.)
  4. Cancellation of plans for mobile missile launching sites for Minuteman and inter-continental missiles.
  5. Failure to develop Bacteriological and Chemical warfare defense or offense.
  6. Cancellation of the successful Nike-Zeus anti-missile missile, Sky-bolt missile, B-70 Super bomber.
  7. Cancellation of production of B-58, B-52 and B-47 bomber construction. These are the backbone of our Strategic Air Force.
  8. Scrapping of five billion's worth of Atlas Missiles.
  9. Blocking the Air Force's badly needed "Advanced Manned Precision Strike System".
  10. Cancellation of the half billion dollar Boeing contract for the Dyna-Soar Orbital Bomber.
  11. Stripping our aircraft carriers of the strategic nuclear bombers. These were the greatest deterrents against surprise attack on the United States.
  12. Cancellation (for the U.S.A., but not for NATO) of Polaris surface ships, cheaper and faster to build than nuclear submarines.
  13. Cancellation of the Navy's Typhoon Missile Ships, capable of moving as close to the USSR as necessary to protect our seapower.
  14. Retreat from the Mediterranean, closing air bases and leaving aircraft carriers there as sitting ducks for USSR land based aircraft.
  15. Piecemeal liquidation of the Panama Canal, including the employment of aliens, instead of Americans, particularly in the police force.
  16. Arming the pro-Communist Sukarno forces while ignoring the anti-Communist Mollucans in Indonesia, since 1950.
  17. Disarming and restraining 20,000 Cuban Regulars of the Cuban Army, Navy and Air Force who wish to recapture Cuba for themselves and their posterity.
- SIGNIFICANCE:** This clearly indicates that the policies of the Federal Government are in conformity with State Department Public Document Number 7277—total and complete disarmament of the United States in order to turn over to the United Nations all our war potential, completing the surrender of our sovereignty to that Communist controlled organization. And this means that we may ultimately expect that savage Congolese, Ghanians, Ethiopians and Ghurkas will "maintain law and order" in the United States, in the same manner as in Christian Katanga, by fire, murder and rapine.

### ACTION INDICATED:

1. Demand of your Senators and Congressmen that they impeach any federal officer responsible for this policy.
2. Demand that they institute legislation repealing the Disarmament Act which created the U.S. Arms Control and Disarmament Agency. P. L. No. 87-297.
3. Organize public demonstrations in protest against disarmament.
4. Inform responsible civic and military leaders.
5. Organize huge drives to petition the President to reverse and disavow this suicidal policy. No American in his right senses can ignore the facts of this **ALERT**.

Readers are urged to reproduce this "Alert" and mail copies to as many patriots as possible.

# IMMIGRATION SCANDALS EXPOSED

Cong. Michael A. Feighan

Cong. Emanuel Celler

Abba Schwartz

Congressman Michael A. Feighan, Chairman of the House Immigration Subcommittee, patriot and watchdog for America against undesirable red aliens, hampered by Zionist pressure in his courageous efforts to force investigation of the alleged red shake-down of incoming aliens.

Emanuel Celler, Chairman of the House Judiciary Committee, noted defender of Communist causes and representative of the Invisible Government. Blocked Public Prayer

Bill and opposed legislation urged by ANTI-Communists. Voted every year against funds to continue **House Committee on Un-American Activities** (except one).

Abba Schwartz, Head of Bureau of Consular Affairs, according to Cong. Feighan, "so evasive and un-cooperative," banned patriots such as Madame Nhu from America, but protected pro-Communist aliens. Considered key figure in Red scandals of Zionist-controlled Immigration Department.

## ANTI-McCARRAN BILL HALTED

From Report to America, Nov. 1964, published by American Coalition of Patriotic Societies.

Chairman Michael A. Feighan, Democrat of Ohio, of the House Immigration Subcommittee has asked the Department of Justice to investigate an alleged Communist shake-down of Americans with relatives wishing to leave countries behind the Iron Curtain.

His action came after Rep. Emanuel Celler, Democrat of New York, Chairman of the House Judiciary Committee, attempted to prevent the publication of testimony before Feighan's subcommittee regarding what is reported to be a multi-million-dollar traffic in human lives, said to involve U. S. officials.

Rep. Feighan held executive sessions in Washington after interviewing refugees from Communist satellites. He inserted documents detailing this operation into the official record, and this material was then edited for publication by the Government Printing Office.

At this point Rep. Celler seized the transcript, the official exhibits, and the subcommittee files. Rep. Feighan denounced Celler on the floor of the House, demanding that this material be released for publication. Rep. Celler refused to release the transcript, saying that Secretary of State Dean Rusk had asked that the hearings not be published. But when challenged on this point by Rep. Feighan, Secretary Rusk said he had made no such request, and that it was strictly a committee matter which did not concern him.

Highlights of the testimony Celler tried to suppress include a letter from the State Department's visa office listing five cases of extortion, and the testimony of Abba P. Schwartz, Administrator, Bureau of Security and Consular Affairs of the State Dept.

Schwartz testified before Feighan's subcommittee on August 3, 1964. When asked about the alleged extortion of money from American relatives of persons wanting to leave Romania, Schwartz denied any knowledge of such shakedowns. He was, in Feighan's words, "so evasive and un-cooperative" that Feighan put him under oath.

At Feighan's insistence, Schwartz had the State Dept. submit to the subcommittee the letters which his office had received before his appearance before the subcommittee.

"Today I am referring this testimony on the communist shakedown racket operating in the United States to the acting attorney general, and to J. Edgar Hoover, director of the Federal Bureau of Investigation. I have studied the operations of this racket and I am convinced it warrants a thorough

and sweeping investigation by the FBI, looking to action by the Department of Justice to seek federal grand jury indictments for violation of federal laws."

Feighan's subcommittee has been under intense Administration pressure to report out the Kennedy-Hart Bill, HR 7700, which would abolish the national origins quota system and emasculate the McCarran-Walter Act. However, Congress adjourned on Oct. 3rd without taking any action on immigration, leaving the present law intact. Capital observers credit Feighan's timely action with a major share of the credit for stopping the Administration's steamroller.

Write your Senators and Congressmen to vote "NO" on Bill HR 7700 which would abolish the McCarran-Walter Act.

## What I Am For...

By Tom Anderson

As the perennial pollyanna said to his friend in the prison death house an hour before the execution: "There's always something to be thankful for; just think, you still have your health!"

This is a time for thanksgiving, for faith, for re-dedication. This is a time for resolutions for the coming year.

Helen Keller said: "Most of us take life for granted. Only the deaf appreciate hearing, only the blind realize the manifold blessings that lie in sight. It is the same old story of not being grateful for what we have until we lose it, of not being conscious of health until we are ill."

"But I who am blind can give one hint to those who see, use your eyes as if tomorrow you would be stricken blind. And the same method can be applied to the other senses: hear the music of voices, the song of a bird, the mighty strains of an orchestra, as if you would be stricken deaf tomorrow. Touch each object you want to touch as if tomorrow your tactile sense would fail. Smell the perfume of flowers, taste with relish each morsel, as if tomorrow you could never smell and taste again."

"Make the most of every sense; glory in all the facts of pleasure and beauty which the world reveals. Thus, at last, you will really see, and a new world of beauty will open up before you."

### FOR AND AGAINST—

One of my devoted readers has inquired: "Have you decided what all you're going to be against in the coming year?" Much as I hate to disappoint this booster, my New Year's resolutions all relate to things I am for.

I am strongly for a congressional investigation of the State Department—to give the Wieland, Rostows, Rubottoms and the faceless brigade a chance to prove their innocence, stupidity, insanity or treason, as the case may be. I'm for "urban renewal" for every city that wants to pay the cost, most of which should be billed to the people who own the downtown real estate and get most of the benefits. "Save the downtown?" Why? Dispersal of city populations should be the goal for many obvious reasons: economy, health, defense, morality.

I'm for making radio and TV networks that are still fighting Nazism and Fascism give equal time to fighting "The Great Society" and other socialist fronts. For making the display of the hammer and sickle an equal crime with display of swastika. For outlawing the Communist Party and jailing or deporting all known Communists, including those in our State Department.

### NATIONAL PURPOSE—

For a "national purpose" diametrically opposed to coexistence with history's most despotic, atheistic mass enslavers. For a "national purpose" dedicated to freeing the half of the world enslaved by the Communists. For the conquered people then holding their own "Nuremberg" trials to convict and hang slaughterers like Khrushchev, Mao, Tito, Breshnev, Castro. For declaring the mass slaughter of Africans, Cubans, Russians, Hungarians, Chinese, Catholics and Protestants an equal crime with mass slaughter of the Jews.

I'm for restoring the last part of what should again be our "national purpose": "Give me liberty, or give me death." (The American people have shortened that original sentence to just "gimme.")

For the only kind of security there is: that which comes from one's own self and soul. For encouraging individualism, the desire to excel, to win, to profit. For an upward reach for our nation toward more spiritual values and morality, starting at the Presidential level.
